Election/Restrictions

1. This is a supplementary restriction election to that issued September 19, 2002, to which Applicant responded on October 21, 2002. Applicant elected Group I, claims 1-10, with traverse. Group I, claims 1-10, is drawn to DNA promoters.

However, Group I claims are hereby restricted to polynucleotides of the group SEQ ID NO: 1- 8. Applicant needs to elect one of these SEQ ID Nos. for further prosecution.

2. Inventions SEQ ID NO: 1-8 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case they have different modes of operation, different functions, or different effects. The DNA sequences of the different inventions are different DNA sequences and have different effects. Their effects are different, when used as hybridization probes, where identity is required. These sequences have different effects under these conditions.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1638

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Georgia L. Helmer whose telephone number is 703-308-7023. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amy Nelson can be reached on 703-306-3218. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4242 for regular communications and 703-308-4242 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0196.
